## AA1000AS v3 Assurance Statement

Prepared for: Blue Diamond Growers  
Intended Users: Blue Diamond Growers Stakeholders  
Date Issued: 26 May 2026

### I. Introduction

Sustainability Assurance Services (SAS) has conducted an independent third-party, Type 2 Moderate Assurance review of Blue Diamond Growers' FY2025 stewardship report and data for the period between August 31, 2024 and August 29, 2025, in accordance with AccountAbility's AA1000 Assurance Standard 2018 (AA1000AS v3). This review assessed the accountability and reliability of Blue Diamond Growers' sustainability management, performance and reporting practices.

The objective of this Type 2 Moderate level assurance review was to assess the inclusivity, materiality, responsiveness, impact ("the Principles") and information reliability and quality set out in the AA1000 Assurance Standard v3.

### II. Roles and Responsibilities

For a Type 2 assurance engagement, the SAS Assurance Team assesses the extent of the organization's adherence to all four AA1000 AccountAbility Principles and provide relevant findings and conclusions, and shall, additionally, assess and evidence the reliability and quality of specified sustainability performance and disclosed information, providing relevant findings and conclusions.

Blue Diamond Growers is responsible for the preparation, collation and reporting of qualitative and quantitative data and reporting materials in addition to the establishment and maintenance of appropriate performance management and internal control systems from which the reported information is derived. If information is spread across multiple disclosures – such as company reports, company webpages, stakeholder reports, or regulatory-specific disclosures – Blue Diamond Growers is responsible for ensuring that the information is not edited or amended in any way after assurance.

### III. Independence and Competence

As part of its independent assessment, SAS does not make recommendations to its clients, but it does identify gaps in reporting that can be used for improvements. Further, SAS was not involved in the development of the sustainability report or other provided information, nor does SAS retain a relationship with its clients that would cause a conflict of interest or compromise its ability to perform an independent assessment.

### IV. Process and Scope of Assurance

The scope of the assurance included Blue Diamond Growers' FY2025 Stewardship Report, which was prepared in reference to the Global Reporting Initiative (GRI) Standard. To review the design of processes, systems, and controls for managing reliability and quality of specified information, the SAS Assurance team also reviewed internal Blue Diamond Growers data tracking sheets, presentations, sustainability meeting topics, stakeholder engagement results, and materiality assessment summaries.

## V. Methodology

The SAS assurance team conducted an information gathering session with Blue Diamond Growers using question-and-answer format. Blue Diamond Growers presented relevant documentation from stakeholders and shared both public and internal documents to demonstrate adherence to the AA1000 principles. Public reports and internal data tracking sheets and procedures were shared by Blue Diamond Growers to support the sustainability performance data reliability and quality.

## VI. Limitations

An assurance engagement is conducted at a point in time and not performed continuously throughout the year. The procedures performed aimed at collecting information throughout the entire reporting year to gather as much historical, present and forward-looking information as possible.

No significant findings have come to our attention that cause us to believe that the sustainability management, reporting and performance has not been conducted in adherence to the AA1000 AccountAbility Principles. In all material respects, Blue Diamond Growers has adhered to the AA1000AS v3 2018 Standard and has provided sufficient evidence to support Moderate level of assurance for reliable and quality performance data for the fiscal year ending 29 August 2025.
